

Covid Protocols/Procedures for Children's Ministry 2021-22

Please note: These protocols/procedures may be updated and altered at anytime

- Masks are required for teachers, children and caregivers while upstairs in the Kidz Zone.
- We will have frequent hand washing and using hand sanitizer each time we transition to a new activity.
- Children will be spaced out as much as possible while in classrooms and Children's Chapel.
- Classrooms might opt to move outdoors during Sunday school time if weather/activity appropriate. If classrooms are outside the whiteboard posted outside of each classroom will tell the location of children if you need to retrieve your child from the classroom. We will always be in our classroom after Sunday school as we transition to Children's Chapel.
- As of September, eating together is not allowed inside of St. James. Snacks will be provided and eaten outside. All snacks will be individually wrapped.
- You must sign in/out each child in classrooms. Sheets will be posted next to Whiteboard outside of each classroom.
- If your child is considered a high risk contact from your school district and your child was in Sunday school the previous week please notify Chelsea immediately. We will discuss next steps and appropriate contact tracing.
- If your child is in quarantine, has a fever, or other Covid symptoms please do not bring them to Sunday school. If you'd like, Chelsea will create a take-home kit to complete for activities.
- If Wichita Public Schools and/or St. James Church is shut down because of Covid-19 we will not have Sunday school or Children's Chapel.
